With over 4,000 square feet of thoughtfully designed living space, this river-facing residence sets a new benchmark for urban luxury in Calgary. Positioned on the only lot in the city that truly sits on the Bow River, the views are as rare as they are remarkable. The exterior showcases acrylic stucco paired with custom metal accents, triple-pane full-height LUX windows, and a 20x20 composite rear deck that offers a front-row seat to nature in the middle of the city. This home is engineered with future-forward living in mind. It is roughed in for full smart home automation including speakers, surveillance, and security. The basement has in-floor heat rough-ins and the garage structure is legal suite-ready with completed foundation, joists, plumbing, electrical, and sanitary connections in place.

Inside, you are greeted with 10-foot ceilings, wide plank white oak hardwood on all three upper levels, and a floorplan that balances clean lines with warmth and functionality. The main level features a formal dining area, a custom mudroom with built-ins, and a stylish two-piece powder room. The living room is centered around a stunning Dekton-slab fireplace with custom white oak millwork. Dual

sliding glass doors lead to the spacious deck, making entertaining seamless indoors and out. The kitchen is both beautiful and highly functional. Outfitted with Caesarstone countertops, custom cabinetry, and a full array of high-end appliances including a gas range, steam wall oven, microwave, and a 48-inch fridge and freezer, it is truly a chef's dream.

On the second floor, you will find two generously sized junior suites with walk-in closets. One features a private three-piece ensuite, while the other is supported by a full four-piece bathroom. The third floor is reserved for the primary retreat. This sanctuary features a coffee bar, expansive walk-in closets, and a spa-inspired ensuite with a freestanding tub, large tiled shower with bench, dual vanities, a makeup desk, and heated tile floors. The fully developed basement offers even more space with a large recreation area, a wet bar with temperature-controlled wine fridge, a dedicated gym or home office, a fourth bedroom, and a modern three-piece bathroom. Mechanically, the home is equipped with two high-efficiency furnaces, HRV units, and a high-efficiency combi boiler for domestic hot water and in-floor heating.
